Marion-Crittenden County Emergency 911

Residential & Business
Keyholders & Vital Information

To improve public safety and to better serve the community, Marion-Crittenden County Emergency 911 is asking residents and businesses to provide important information that can improve response times and safety for everyone involved should an emergency occur at your location.

Critical information might include the following: hard-of-hearing or sight-impaired individuals residing at an address, the names and phone numbers of keyholders to businesses or homes, livestock owners, names of emergency contacts for a particular address or whether serious medical conditions exist for individuals at your location. By helping us catalog these types of details and others, dispatchers will be better informed to help you in a time of need.

Please complete this form and deposit it in the Marion City Hall Drop Box in front of the 911 Dispatch Center.
You may also email a completed form to Marion-Crittenden County E-911 Coordinator Melissa Scheer at
melissa.scheer@crittendencountyky.org
